- Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)
- Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)
- Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))
- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock, par value \$0.001	ARI	NYSE American

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§230.405 of this chapter) or Rule 12b-2 of the Securities Exchange Act of 1934 (§240.12b-2 of this chapter).

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Item 7.01 Regulation FD Disclosure

On December 9, 2024, Air Industries Group (the “Company”) issued a press release announcing that it had secured a follow-on contract valued at approximately \$11 million for landing gear assemblies for the U. S. Navy E-2D Advanced Hawkeye aircraft. Air Industries has been a key supplier to the E-2 family of aircraft for decades, underscoring its long-standing role in supporting critical defense programs.

The information in this Form 8-K, including Exhibit 99.1 attached hereto, shall not be deemed as “filed” for purposes of Section 18 of the Securities Exchange Act of 1934 (the “Exchange Act”), or otherwise subject to the liability of such Section, nor shall it be deemed incorporated by reference in any filing by Air Industries under the Securities Act of 1933, as amended, or the Exchange Act, regardless of any general incorporation language in such filing, unless expressly incorporated by specific reference in such filing.

Item 9.01 Financial Statements and Exhibits.**(d) Exhibits.**

Exhibit No.	Description
99.1	Text of press release issued December 9, 2024, by Air Industries Group.

Air Industries Group Secures \$11 Million Contract for Landing Gear Assemblies for the US Navy E-2D Advanced Hawkeye Aircraft

BAY SHORE, N.Y. -- (BUSINESS WIRE) -- **Air Industries Group** (“**Air Industries**”) (NYSE American: **AIRI**), a leading manufacturer of precision components and assemblies for large aerospace and defense prime contractors, today announced that it has secured a follow-on contract valued at over \$11.0 million for landing gear assemblies for the U.S. Navy E-2D Advanced Hawkeye aircraft. Air Industries has been a key supplier to the E-2 family of aircraft for decades, underscoring its long-standing role in supporting critical defense programs.

Production is scheduled to commence in the second half of 2025, upon the arrival of raw materials, with delivery of finished product set to begin in the first quarter of 2026.

Lou Melluzzo, Chief Executive Officer of Air Industries Group remarked: “The E-2D Advanced Hawkeye is a mission-critical platform for the US Navy, managing the airspace surrounding a Carrier Battle Group by identifying threats and coordinating aircraft movements. This contract grew in size during negotiations, reflecting the ongoing importance of the aircraft not only to the Navy but also to an expanding number of foreign military customers.”

Melluzzo continued: “The E-2D has been a cornerstone of Air Industries’ operations for many years. This follow-on contract reaffirms our customer’s trust in our capabilities, reliability, and performance. We are proud to continue supporting this vital program for both domestic and international defense needs.”

ABOUT AIR INDUSTRIES GROUP

Air Industries Group is a leading manufacturer of precision components and assemblies for large aerospace and defense prime contractors. Its products include landing gears, flight controls, engine mounts and components for aircraft jet engines, ground turbines and other complex machines. Whether it is a small individual component or complete assembly, its high quality and extremely reliable products are used in mission critical operations that are essential for the safety of military personnel and civilians.

FORWARD LOOKING STATEMENTS

Certain matters discussed in this press release are 'forward-looking statements' intended to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. In particular, the Company's statements regarding trends in the marketplace, future revenues, earnings and Adjusted EBITDA, the ability to realize firm backlog and projected backlog, cost cutting measures, potential future results and acquisitions, are examples of such forward-looking statements. The forward-looking statements are subject to numerous risks and uncertainties, including, but not limited to, the timing of projects due to variability in size, scope and duration, the inherent discrepancy in actual results from estimates, projections and forecasts made by management, regulatory delays, changes in government funding and budgets, and other factors, including general economic conditions, not within the Company's control. The factors discussed herein and expressed from time to time in the Company's filings with the Securities and Exchange Commission could cause actual results and developments to be materially different from those expressed in or implied by such statements. The forward-looking statements are made only as of the date of this press release and the Company undertakes no obligation to publicly update such forward-looking statements to reflect subsequent events or circumstances.

NON-GAAP FINANCIAL MEASURES

The Company uses Adjusted EBITDA, a Non-GAAP financial measure as defined by the SEC, as a supplemental profitability measure because management finds it useful to understand and evaluate results, excluding the impact of non-cash depreciation and amortization charges, stock based compensation expenses, and nonrecurring expenses and outlays, prior to consideration of the impact of other potential sources and uses of cash, such as working capital items. This calculation may differ in method of calculation from similarly titled measures used by other companies and may be different than the EBITDA calculation used by our lenders for purposes of determining compliance with our financial covenants. This Non-GAAP measure may have limitations when understanding performance as it excludes the financial impact of transactions such as interest expense necessary to conduct the Company's business and therefore are not intended to be an alternative to financial measure prepared in accordance with GAAP. The Company has not quantitatively reconciled its forward looking Adjusted EBITDA target to the most directly comparable GAAP measure because items such as amortization of stock-based compensation and interest expense, which are specific items that impact these measures, have not yet occurred, are out of the Company's control, or cannot be predicted. For example, quantification of stock-based compensation is not possible as it requires inputs such as future grants and stock prices which are not currently ascertainable.
